Our very own Alan Roberts - General Manager Fleet Management has been appointed to the role of President of the Australasian Fleet Management Association (AfMA). Alan served as Vice President through 2010/2011 and retains the position of NZ Chapter Chair.

AfMA has 575 Members throughout New Zealand and Australia, who collectively represent a fleet size of approximately 800,000 vehicles.

Australasian Fleet Management Association has set out and continues to lead the advancement and the enhancement of the Fleet Management profession. According to Alan "opportunity exists both in New Zealand and Australia for AfMA to work with its members to lobby Government and Industry (as a single voice) to achieve greater recognition and benefits for all Fleet Managers and their associated businesses. With debates on best practice, product stewardship, tax and emissions very much on the table, now is the time to act and voice our position – through AfMA we can do this".

If you want to know more about AfMA or wish to join visit www.afma.co.nz
